

Create Your Professional eCommerce or Showcase Website

Create Your eCommerce or Showcase Website by following these simple steps to get the best advertising to attract potential customers from the Web.

Let's see how to create your own eCommerce or Showcase Website

1 - Home page;

2 - Pages / Product Sheet;

3 - List of Services / Products;

Let's see how easy it is to create points 1, 2 and 3!

Create your own user and the name of your eCommerce or Showcase Website;

After clicking on Login you will be able to customize your home page: Title, Message, Images of the eCommerce or Showcase Website, Categories, Short and Extended Description of Your Business;

By clicking on the Category link you can insert many Categories as you wish to. Enter the name of the category and tick the Visible flag on Menu to make it visible on the submenu of the Home Page;

This is the most important part, the insertion of Services / Products or simply the creation of a web page. Click **Create Web Page**;

The Product Insert tab appears: Title, Description, Price, Discount, Pictures, if visible on the Home Page and in which categories it belongs;

As you have the opportunity to place more photos on the eCommerce or Showcase Website, you have the option to enter photos of the selected Product / Service;

... then there is the section on the related pages and more ...
